**Forest Environmental Enhancement
Promotion Fund /Admission Donation**

**Admission
Donation**

- High school students and up
— 500 yen per person

*If you go to both areas, you will receive a 200-yen discount coupon to use at one site.

- Group rates (15 or more people)
— 400 yen per person

*Shiratani Unsuikyo 200-yen discount tickets are not applicable for groups.

Forest Environmental Enhancement Promotion Fund/Admission Donations are used for maintaining and repairing trails, maintenance of facilities, and administration of Yakushima Natural Recreation Forests (Shiratani Unsuikyo Ravine and Yakusugi Land).

We appreciate your understanding and cooperation.

Released May 2024

Shiratani Unsuikyo Ravine
Yakushima Natural Recreation Forest (Shiratani area)

Shiratani Unsuikyo Ravine is a nature park situated at an elevation of 600 to 1,050 meters covering an area of 424 hectares.

Shiratani Unsuikyo Ravine is only 10 km from Miyanoura, about 25 minutes by car. There are route buses from Miyanoura Port.

A favored feature of this park is its hiking trails. There are several trails you can choose from according to the level of difficulties and course times: Yayoisugi cedar course (about 1 hour 10 minutes), Bugyosugi cedar course (about 3 hours), and Taikoiva rock round trip course (including part of the Kusugawa walking path, about 4 hours).

In the Moss Covered Forest alongside the Kusugawa Mountain Trail, you will be drawn into a mysterious and beautiful world that inspired the setting of the film "Princess Mononoke."

Furthermore, a route to Mt. Miyanoura, the highest mountain in Kyushu, by way of Tsujitoge Pass, Wilson Stump, Daiyosugi Cedar, and Jomonsugi Cedar is accessible within the park.

**Major yakusugi cedar trees
in Shiratani Unsuikyo Ravine**

Name	Height (m)	Trunk Circumference (m)	Elevation (m)	Course
Yayoisugi Cedar	26.0	7.6	719	Yayoisugi Cedar Course
Nidaiosugi Cedar	30.5	5.2	730	Yayoisugi Cedar Course Bugyosugi Cedar Course
Sanbon-ashisugi Cedar	25.9	3.9	793	Bugyosugi Cedar Course
Sanbon-yarisugi Cedar	23.2	2.7	830	Bugyosugi Cedar Course
Bugyosugi Cedar	23.3	8.4	829	Bugyosugi Cedar Course
Shiratani Unsuikyo Ravine Kugurisugi Cedar	13.7	3.9	833	Taikoiva Rock Round Trip Course
Nanahonsugi Cedar	35.8	8.3	836	Taikoiva Rock Round Trip Course
Bukesugi Cedar	19.6	3.3	912	Taikoiva Rock Round Trip Course
Kugesugi Cedar	23.6	3.3	912	Taikoiva Rock Round Trip Course
Kaminarionji	24.4	6.4	984	Taikoiva Rock Round Trip Course
Megamisugi Cedar	18.5	7.6	996	Taikoiva Rock Round Trip Course

*Data from 2022 and 2023 surveys of Giant and Famous Yakusugi Cedar Trees by Kyushu Regional Forest Office, Forestry Agency of Japan

**If possible, we would like you
to use disposable toilets.**

Shiratani Unsuikyo Ravine uses several restroom systems.

In recent years, the toilets at Shiratani Hut have seen an increase in usage, which has become an environmental burden. Also, the maintenance of the toilets is getting too costly. To reduce these burdens, we have introduced a disposable toilet system. Disposable-toilet packages can be purchased at the reception counter.

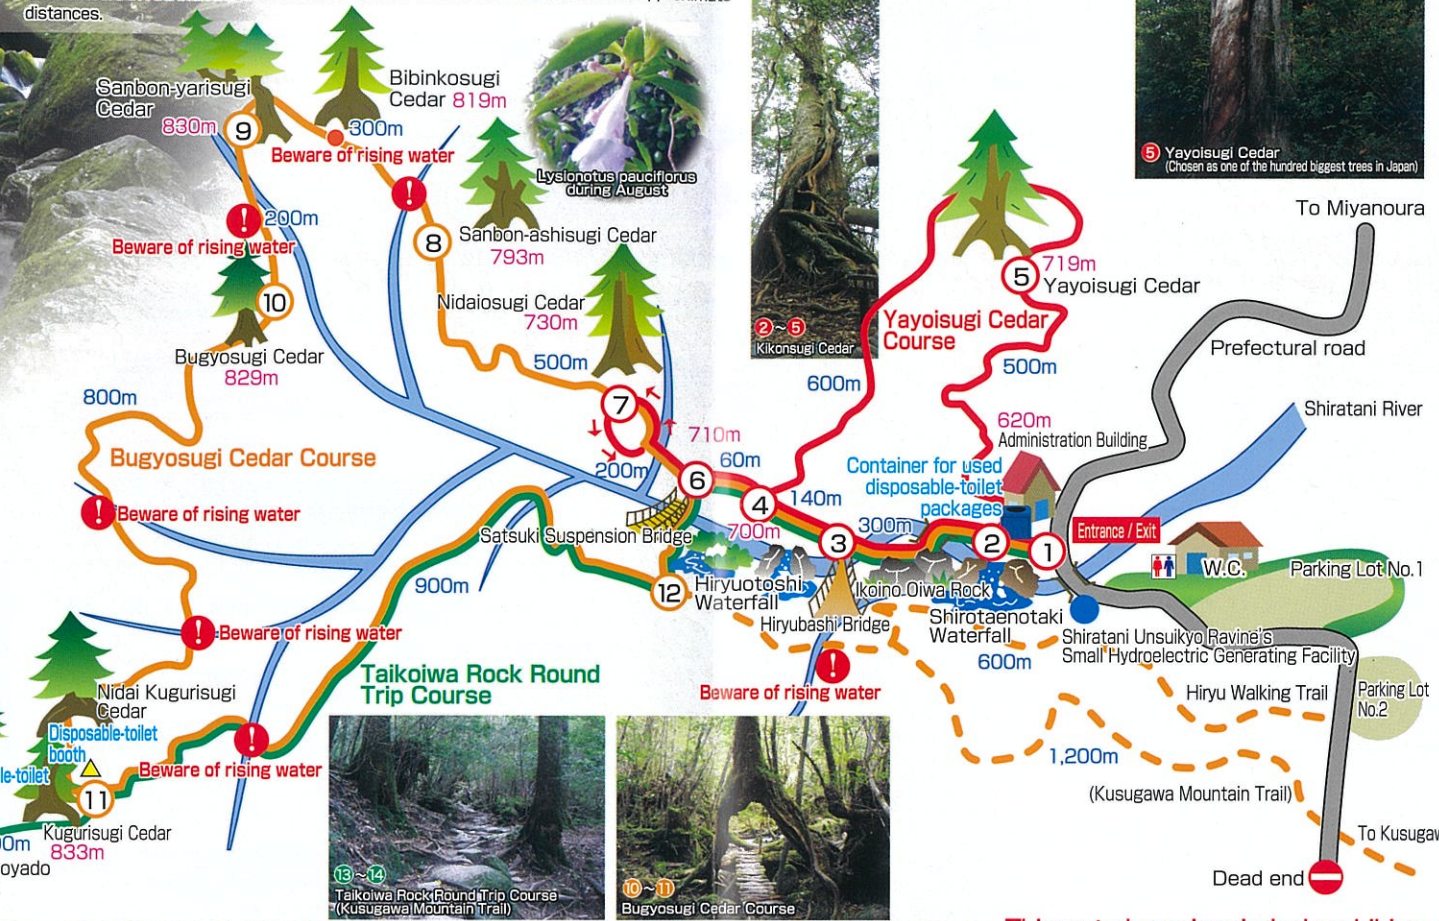

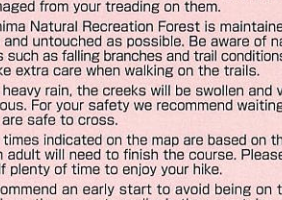

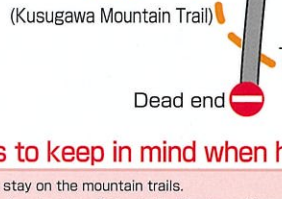

A container for used disposable-toilet packages is located next to a gazebo in front of the administration building. Please throw your used disposable-toilet packages away in the disposable-toilet container.

We greatly appreciate your understanding and cooperation.

Shiratani Unsui-kyo Ravine Guide Map

Yakushima
Natural Recreation Forest
Shiratani area

- Yayoi-sugi Cedar Course (about 2km or an hour and 10minute hike)
 - Bugyosugi Cedar Course (about 4km or a 3hour hike)
(*The route from point ⑦ to point ⑪ is a physically difficult hike with lots of ups and downs and will take about 2 hours.)
 - Taikoiwa Rock Round Trip Course (about 5.6 km or a 4 hour hike)
(*Round trip from the entrance to Moss Covered Forest takes about 2 and a half hours.)
- Please take note that the trail from after Satsuki Suspension Bridge to Taikoiwa Rock (⑫-⑬) is particularly steep, as well as Tujitoge Pass to Taikoiwa Rock (⑮-⑯) and the return trip (⑮-⑫).
- Note that number ⑥-⑮ are mountain trails. Please check your equipment and know your physical condition for your climb.
- The numbers in red indicate the elevations and the numbers in blue indicate the approximate distances.

Things to keep in mind when hiking

- Please stay on the mountain trails.
- Please do not stray off the trails. Plants and tree roots can be damaged from your treading on them.
- Yakushima Natural Recreation Forest is maintained to be as natural and untouched as possible. Be aware of natural hazards such as falling branches and trail conditions. Be alert and take extra care when walking on the trails.
- After a heavy rain, the creeks will be swollen and very dangerous. For your safety we recommend waiting until creeks are safe to cross.
- Course times indicated on the map are based on the average time an adult will need to finish the course. Please give yourself plenty of time to enjoy your hike.
- We recommend an early start to avoid being on the trail in the dark, as the sun sets earlier in the mountains, especially in winter.

- ▲ Disposable-toilet booths on the trail in the park
- At point ⑪ (tent type booth)
 - Next to point ⑬ (wooden booth)
 - Next to Tujinoiwaya, past point ⑮ (tent type booth)
- Container for used disposable-toilet packages
